Problem Statement

- **Lack of navigation within the faculty for new and existing students.**
- **Accessibility Challenges for Students with Disabilities**
- **Lack of announcements / information about the upcoming events in the faculty.**

NLP Solution

Create a **navigation chatbot** that optimizes route planning on FSKTM along with class schedules, awareness of events and user preferences can help students navigate the whole FSKTM more effectively and manage their time efficiently.

Language

Python

Data

Class & Event Schedule, FSKTM Map, Dataset for chatbot training

HOW TO COLLECT?

- Maya
- FSKTM Website
- Telegram Group
- On-site visits
- Kaggle
